MEMBER COMPANY WEBINARS FOR PHARMA MANUFACTURERS

All member company webinars are available to view on our new [Industry Relations Hub platform](#). These briefings are made available exclusively to our attendees from biopharmaceutical companies.

Please view these important briefings in advance of your meetings and engagement with PBM representatives. The webinars serve as a primer for your business interactions that will take place while attending the conference. Our PBM members have taken the time to record these sessions to improve the quality of your business interactions.

You will receive an email inviting you to access the Industry Relations Hub platform or you can click [here](#). Please be sure to use your work email address and the default password is pcmatemp. You will then be asked to reset your password once you have successfully logged into the site. Please reach out to Jenny Bradham at jbradham@pcmanet.org with any questions.
